

	Wednesday, October 21					
7:00 AM - 3:00 PM	Registration Info Desk Foyer Floor 1					
7:00 AM - 8:00 AM	Breakfast Great Room Floor 1					
7:15 AM - 7:45 AM	Student Breakfast Meet Up: Where Connections Begin					
8:00 AM - 9:25 AM	CONCURRENT SESSION #1					
LOCATION	GREAT	SHUTTERS WEST I	SHUTTERS WEST II	SHUTTERS EAST I	COURTYARD 1	COURTYARD II
Track	American Jurisprudence Track Chair/s: Ian Rassman, Joshua Bauchner, Trisha Zulic, Mary Celeste	Regulatons & Policy Track Chair/s: Mike Lomuto, Riana Durrett, Robert Mejia	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	Processes And Uses Track Chair/s: Kelly Vining, Shelby Ellison	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	LATE-BREAKING RESEARCH
	Cannabis Impairment And Driving Safety Session Chair/s: Hollis Karoly	From Rulemaking To Reality: A Facilitated Synthesis Of The Regulation & Policy Track Session Chair/s: Mary Celeste	Linking Cannabis Use, Neuroinflammation, Blood-brain Barrier Function, And Clinical Outcomes: Translational Insights From Hiv Session Chairs: Jennifer Ludicello, Jerel Adam Fields	Optimization of Industrial Hemp Post-Harvest Processing For Targeted End Use Session Chair/s: Phillip Alberti, Shelby Ellison	Medical Cannabis Use in the Real World: Epidemiology, Public Health, and Patient Outcomes	
8:00 AM - 8:25 AM	Driving Impairment Associated with Cannabis Edibles, Vaporized Cannabis, and Delta-8 THC Presented By Tory Spindle	New York State's Approach to Advancing Cannabis Research and Scientific Innovation Presented by Andrea Unser	Cannabis Use and HIV Infection Differentially Modulate Vascular Integrity and Leukocyte Transmigration at the Blood-Brain Barrier Presented By Maria Cecilia Marcondes, Violaine Delorme Walker	Effects of Pressing Conditions on Oil Recovery from Hemp Hearts Using a Lab-Scale Hydraulic Press Presented By Femi Fawole	Cannabis Research at the National Institute on Drug Abuse Presented By Heather Kimmel	Cannabichromene Variation in Cannabidiol-Dominant (Type III) Hemp Cultivars Reginald Gaudino
8:30 AM - 8:55 AM	Expectations V. Performance: Does The Accuracy of Users' Expected Post-Smoking Driving Simulator Performance Differ By Cannabis Use Experience? Presented By Jake Rattigan		Frequency-dependent Cannabis Effects On Structural And Endothelial Bbb Biomarkers In Hiv: Links To Cns Vascular Activation And Neurocognition Presented by Jennifer Ludicello	Grain Hemp Variety Performance and Seed Quality Evaluation in Wisconsin (2024–2025) Presented By Phillip Alberti	Cannabis Screening Practices, Knowledge, Beliefs, and Desired Resources Among Clinicians Serving Pregnant and Breastfeeding Patients Presented By Laura Houghtaling, Traci Toomey, Nora Johnson	Cannabichromene Variation in Cannabidiol-Dominant (Type III) Hemp Cultivars Reginald Gaudino
9:00 AM - 9:25 AM	Geographic And Age-Related Variation In Cannabis-Impaired Driving Across The United States Presented By Jodi Gilman	Transitioning From Schedule I To Schedule III Cannabis Manufacturing Registration: Regulatory Requirements, Research Expansion, And Institutional Readiness Presented By Joseph Sheehan	Translational Studies Of The Impact of Cannabis Use On Macrophage Immunometabolic Impact In People With Hiv Presented By Jerel Fields, Bryant Avalos	Lab-Scale Mechanical Decortication: Energy Profiling and Mechanical Characterization of Individual Hemp Stems Presented By Wayne Swink	Standardizing the Assessment of Medical Cannabis Treatment Experiences: Development of the Cannabinoid Experience Rating Scale (CbERS) Presented by Melanie Kane	Building Trust in Medical Cannabis Care: The Role of Pharmacists in Medication Safety and Clinical Oversight Presented By Melani Kane
9:25 AM - 9:30 AM	PASS THROUGH BREAK					
9:30 AM - 10:55 AM	CONCURRENT SESSION #2					
LOCATION	GREAT	SHUTTERS WEST I	SHUTTERS WEST II	SHUTTERS EAST I	COURTYARD 1	COURTYARD II
TRACK	American Jurisprudence Track Chair/s: Ian Rassman, Joshua Bauchner, Trisha Zulic, Mary Celeste	Regulatons & Policy Track Chair/s: Mike Lomuto, Riana Durrett, Robert Mejia	Plant Physiology, Biology, And Cultivation Track Chair/s: David Gang, Everaldo McInnon, Nirrit Bernstein	Processes And Uses Track Chair/s: Kelly Vining, Shelby Ellison	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	LATE-BREAKING RESEARCH
SESSION	Cannabis Impairment And Driving Safety Session Chair/s: Hollis Karoly	Engineering Trust in Cannabis: A Systems-Level Framework for Quality, Safety and Public Health Session Chair/s: Jeremiah Momper	Plant Propagation Techniques And Early-Stage Growth And Development of Cannabis Plants. Session Chair/s: Philip Wiredu Addo, Mark Lefsrud	Optimization of Industrial Hemp Post-Harvest Processing For Targeted End Use Session Chair/s: Phillip Alberti, Shelby Ellison	Medical Cannabis Use in the Real World: Epidemiology, Public Health, and Patient Outcomes	

9:30 AM - 9:55 AM	Predicting Driving After Cannabis Use With Real-Time Ema And Gps Data Presented By Jane Metrik	PANEL DISCUSSION: Detection, Quantification, and Risk Assessment of Pesticides in Commercial Cannabis Products Presented by Jeremiah Romper, Raymond Suhandynata, Amber Kramer	PANEL DISCUSSION: Effects of Far-Red Light Supplementation on Early-Stage Micropropagation of Cannabis Sativa Presented By Mark Lefsrud, Fatemeh Kiani,	Optimizing Hemp Breeding For Fiber Production Presented by Kelly Vining	Doctor-Recommended Cannabis Use In the Era of Legalization: Trends from California (2019-2024) Presented By Jamie Corroon	School-Based Cluster-Randomized Controlled Trial (c-RCT) Evaluating SmartTalk: Cannabis Prevention and Awareness Curriculum Presented by Holly Lung
10:00 AM - 10:25 AM	Short-Term Residual Effects of Smoked Cannabis on Simulated Driving Performance Presented By Kyle Mastropietro			Cultivars to Food Applications: Functional Properties of Proteins from Various Oregon-Grown Hemp Cultivars Presented By Younas Dadmohammadi, Forough Soroushmanesh	Medical Cannabis Use In Pediatric Conditions Presented by Almut G. Winterstein	PANEL DISCUSSION:Substitution and Co-Use: Alcohol-Related Risk Perceptions Among Adults Who Consume Hemp-Derived THC Beverages Presented by Jennifer Anttonito "
10:30 AM - 10:55 AM	Winding Roads and Hidden Risks: Cannabis and Polysubstance Impaired Driving in Rural Communities Presented By Gay Polk-Payton			Machine Learning-Driven Optimization of Basal Media for Multi-Genotype Cannabis Sativa L. Micropropagation Presented By Marco Pepe	The Chaotic Landscape of Hemp Business Types and Classification in the United States. Presented By Jane Kolodinsky	
10:55 AM - 11:20 AM	BREAK WITH EXHIBITORS FOYER FLOOR 1					
11:25 AM - 12: 35 AM	CONCURRENT SESSION #3					
LOCATION	GREAT	SHUTTERS WEST I	SHUTTERS WEST II	SHUTTERS EAST I	COURTYARD 1	COURTYARD II
TRACK	American Jurisprudence Track Chair/s: Ian Rassman, Joshua Bauchner, Trisha Zulic, Mary Celeste	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	Plant Physiology, Biology, And Cultivation Track Chair/s: David Gang, Everald Mclennon, Nirit Bernstein	Processes And Uses Track Chair/s: Kelly Vining, Shelby Ellison	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	LATE-BREAKING RESEARCH
SESSION	Novel Approaches To Detecting Cannabis-Related Impairment: Challenges And Opportunities Session Chair/s: Thomas Marcotte	Novel Biomarkers And Integrative Methods For Understanding The Metabolic And Neurobiological Mechanisms of Cannabis Use And Disorder Session Chair/s: Cinnamon Bidwell, Angela Bryan	Plant Propagation Techniques And Early-Stage Growth And Development of Cannabis Plants. Session Chair/s: Philip Wiredu Addo, Mark Lefsrud	Optimization of Industrial Hemp Post-Harvest Processing For Targeted End Use Session Chair/s: Phillip Alberti, Shelby Ellison	Medical Cannabis Use in the Real World: Epidemiology, Public Health, and Patient Outcomes Session Chair/s: Joanna Zeiger	
11:25 AM - 11:40 AM	PANEL DISCUSSION: Challenges in Identifying Individuals Driving Under the Influence of Cannabis (DUIC) Presented By Thomas Marcotte	PANEL DISCUSSION: Associations Between N-Acylethanolamine Endocannabinoids and Central Nervous System Associated Signaling Proteins Among a Sample of Older Adults: A Cross-Lagged Panel Analysis Presented By Renee Martin-Willett	PANEL DISCUSSION: Optimization of Meristem Culture for Early-Stage Micropropagation of Cannabis Sativa Presented By Fatemeh Kiani	PANEL DISCUSSION: The Hemp Lab: Material Experiments for A Regenerative Future Presented by Marianne Fairbanks	Patient-Reported Patterns of Cannabis Consumption and Subjective Effects in Rheumatic and Musculoskeletal Diseases Presented By Joanna S. Zeiger	Advancing Cannabis Science to Address Emerging Regulatory and Industry Challenges in Canada Presented by Gabriel Picard
11:45 AM - 12:10 AM	Suitability of Field Sobriety Tests And A Novel Tablet-Based Behavioral Test (Druid) For Cannabis Impairment Detection Presented By Tory Spindle				PANEL DISUCUSSION: Preventing Development of CHS Through Early Identification Through Real-World Patient Data Presented By Megan Mbengue, Codi Peterson	
12:15 PM - 12:35 PM	Detection of Δ9-Tetrahydrocannabinol Impairment Using Resting-State fNIRS: A Randomized Trial Presented By Jodi Gilman					

12:35 PM - 1:00 PM	LUNCH-ON-THE-GO					
LOCATION	GREAT	SHUTTERS WEST I	SHUTTERS WEST II	SHUTTERS EAST I	COURTYARD 1	COURTYARD II
TRACK	American Jurisprudence Track Chair/s: Ian Rassman, Joshua Bauchner, Trisha Zulic, Mary Celeste	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	Regulations & Policy Track Chair/s: Mike Lomuto, Riana Durrett, Robert Mejia	American Jurisprudence Track Chair/s: Ian Rassman, Joshua Bauchner, Trisha Zulic, Mary Celeste	Medical & Clinical Research Track Chair/s: Emily Lindley, Heather Kimmel, Richard Van Breemen	LATE-BREAKING RESEARCH
SESSION	Novel Approaches To Detecting Cannabis-Related Impairment: Challenges And Opportunities Session Chair/s: Thomas Marcotte	Novel Biomarkers And Integrative Methods For Understanding The Metabolic And Neurobiological Mechanisms of Cannabis Use And Disorder Session Chair/s: Cinnamon Bidwell, Angela Bryan	From Retail to Experience: The Regulatory Evolution of Cannabis Hospitality Session Chair/s: Brian Applegarth, Ali Fakhri	From Rulemaking To Reality: Synthesizing The Legal Impact On The Cannabis Industry Session Chair/s: Ian Rassman	Biased Signaling and Beyond: Emerging Pharmacological Insights into the Endocannabinoid System Session Chair/s: Duncan Mackie	
1:05 PM - 1:30 PM	PANEL DISCUSSION: Objective Markers of Acute Cannabis Inhalation: Pupillometry and A Tablet-Based Cognitive Test Battery Presented By Ashley Brooks-Russell Impact of Smoked Cannabis on Time Production and Time Estimation Abilities: Implications for Driving Simulator Performance and Field Sobriety Test Impairment Presented By Kyle Mastropietro	Changes In IL-6 Moderate Changes in Pain Intensity Over Two Weeks of Naturalistic Edible Cannabis Use: Evidence for THC and CBD Synergy Presented By Jonathon Lisano	From Product To Place: A Systems Framing for Cannabis Hospitality Regulation Presented By Brian Applegarth	PANEL DISCUSSION: Regulatory Science in Action: Advancing Public Health Through Cannabis Testing Standards Presented By Antonio Frazier, Amber Kramer, Renée Meyer, Raymond Suhandynata	Acute Vaporized Cannabis Exposure Impacts Decision-Making and Dopamine Signaling in the Nucleus Accumbens Shell During a Dynamic Foraging Task Presented By Avalon Amaya	PANEL DISCUSSION: Advancing Cannabis Research: NCCIH and NIH Priorities, Resources, and Pathways Forward Presented by Patrick Still, David Shurtleff , Patrick Still, Ikhlas Khan, Mohamed M. Radwan, Nandakumara Sarma
1:35 PM - 2:00 PM	Investigating Cannabinoid Molar Metabolite Ratios as Predictors of Objective Cannabis Intoxication: The Moderating Role of Subjective Intoxication Presented By Claire Pince	High-dimensional Biomarker Profiling Reveals Lipid Mediators as Key Predictors of Cannabis Use Disorder Presented by Cinnamon Bidwell	PANEL DISCUSSION: From Retail To Experience: The Regulatory Evolution of Cannabis Hospitality Presented By Brian Applegarth, Ali Fakhri, Beau Whitney		Integrative Network Analysis Reveals Organizational Principles of the Endocannabinoid System Presented By Reginald Gaudino	
2:05 PM - 2:30 PM		Acute Effects of Cannabis on Gut-derived Peptides: CBD Versus Thc Versus CBD+THC Presented by Angela Bryan			A Prospective Study of Topical Cannabinoids for Chronic Joint Pain	
2:30 PM	Conference 2026 Adjourns
